Additional information For the wording of the listed hazard phrases refer to section 16.

## SECTION 4: First aid measures

- 4.1 Description of first aid measures
- After inhalation Supply fresh air; consult doctor in case of symptoms.
- After skin contact Instantly wash with water and soap and rinse thoroughly.
- After eye contact Rinse opened eye for several minutes under running water.
- After swallowing In case of persistent symptoms consult doctor.
- 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

# SECTION 5: Firefighting measures

- 5.1 Extinguishing media
- Suitable extinguishing agents Use fire fighting measures that suit the environment.
- 5.2 Special hazards arising from the substance or mixture No further relevant information available.
- 5.3 Advice for firefighters
- Protective equipment: No special measures required.

# **SECTION 6: Accidental release measures**

- 6.1 Personal precautions, protective equipment and emergency procedures Not required. • 6.2 Environmental precautions:
- Inform respective authorities in case product reaches water or sewage system. Dilute with much water.

### according to Regulation (EC) No 1907/2006, Article 31

Printing date 16.04.2024

Version number 21 (replaces version 20)

Revision: 22.01.2024

(Contd. of page 2)

#### Trade name: impralan-Grund G400 0000 farblos

- 6.3 Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- 6.4 Reference to other sections
  - See Section 7 for information on safe handling
  - See Section 8 for information on personal protection equipment.
  - See Section 13 for information on disposal.

# SECTION 7: Handling and storage

•7.1 Precautions for safe handling No special precautions necessary if used correctly.

- Information about protection against explosions and fires: No special measures required.
- 7.2 Conditions for safe storage, including any incompatibilities
- Storage
- Requirements to be met by storerooms and containers: No special requirements.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: None.
- 7.3 Specific end use(s) No further relevant information available.

## SECTION 8: Exposure controls/personal protection

#### • 8.1 Control parameters

• Components with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

#### 57-55-6 Propylene glycol

WEL Long-term value: 474\* 10\*\* mg/m<sup>3</sup>, 150\* ppm \*total vapour and particulates \*\*particulates

• Additional information: The lists that were valid during the compilation were used as basis.

#### 8.2 Exposure controls

Appropriate engineering controls

Provide adequate general and local exhaust ventilation. Ensure the ventilation system is regularly maintained and tested. Good general ventilation should be adequate to control worker exposure to airborne contaminants. Observe any occupational exposure limits for the product or ingredients

- Individual protection measures, such as personal protective equipment
- General protective and hygienic measures

Wash hands thoroughly after handling. Wash at the end of each work shift and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product.

- Breathing equipment: Not required.
- Hand protection

The glove material has to be impermeable and resistant to the product.

No recommendation to the specific glove material can be given for the product. Please refer to glove manufacurer for siutability.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

- Material of gloves Please refer to the above paragraph.
- Penetration time of glove material

Please refer to the glove manufacturer and the information in the paragraphs above.

- Eye/face protection Safety glasses recommended during refilling.
- Body protection:

Protective work clothing. Wear appropriate clothing to prevent any possibility of skin contact.

9.1 Information on basic physical and cher	nical properties
General Information	
Physical state	Fluid
Colour:	According to product specification
Odour:	Characteristic
Odour threshold:	Not determined.
Melting point/freezing point:	Not determined
Boiling point or initial boiling point and	
boiling range	100 °C
Flammability	Not applicable.
Lower and upper explosion limit	
Lower:	Not determined.
Upper:	Not determined.
PFlash point:	Not applicable
Decomposition temperature:	Not determined.
	7.8
pH at 20 °C	7.0
Viscosity:	
Kinematic viscosity at 20 °C	11 s (DIN 53211/4)
dynamic:	Not determined.
Solubility	
Water:	Fully miscible
Partition coefficient n-octanol/water (log	-
value)	Not determined.
Vapour pressure at 20 °C:	23 hPa
Density and/or relative density	<b>.</b>
Density at 20 °C	1.021 g/cm³
	Not determined.
Relative density	
Vapour density	Not determined.
9.2 Other information	
Appearance:	
Form:	Fluid
Important information on protection of hea	
and environment, and on safety.	
	Product is not colficniting
Self-inflammability:	Product is not selfigniting.
Explosive properties:	Product is not explosive.
Solvent content:	
Organic solvents:	1.5 %
Water:	76.0 %
Change in condition	
Evaporation rate	Not determined.

# SECTION 10: Stability and reactivity

• 10.1 Reactivity No further relevant information available.

• 10.2 Chemical stability

• Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

• 10.3 Possibility of hazardous reactions No dangerous reactions known

• 10.4 Conditions to avoid No further relevant information available.

• 10.5 Incompatible materials: No further relevant information available.

• 10.6 Hazardous decomposition products: No dangerous decomposition products known

# **SECTION 11: Toxicological information**

• 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

• Acute toxicity Based on available data, the classification criteria are not met.

• LD/LC50 values that are relevant for classification:

### 29911-28-2 dipropylene glycol butyl ether

Oral LD50 3,700 mg/kg (Rattus norvegicus (Ratte))

Dermal LD50 >2,000 mg/kg (Rattus norvegicus (Ratte))

Inhalative LC50/4 h 5.4 mg/l (Rattus norvegicus (Ratte))

• Skin corrosion/irritation Based on available data, the classification criteria are not met.

• Serious eye damage/irritation Based on available data, the classification criteria are not met.

• Respiratory or skin sensitisation Based on available data, the classification criteria are not met.

- Germ cell mutagenicity Based on available data, the classification criteria are not met.
- Carcinogenicity Based on available data, the classification criteria are not met.

• Reproductive toxicity Based on available data, the classification criteria are not met.

- STOT-single exposure Based on available data, the classification criteria are not met.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- Aspiration hazard Based on available data, the classification criteria are not met.
- 11.2 Information on other hazards

### • Endocrine disrupting properties

60207-90-1 propiconazole

List II

# **SECTION 12: Ecological information**

•	12.1	Toxicity
---	------	----------

Aquatic toxicity:

29911-28-2 dipropylene glycol butyl ether

LC50(96 h) 841 mg/l (Poecilia reticulata)

EC50(48 h) >100 mg/l (Daphnia magna)

• 12.2 Persistence and degradability No further relevant information available.

- 12.3 Bioaccumulative potential No further relevant information available.
- 12.4 Mobility in soil No further relevant information available.
- 12.5 Results of PBT and vPvB assessment
- PBT: Not applicable.
- vPvB: Not applicable.
